TOP: Frame folded

BOTTOM: Frame extended

FOLDING HARROW FRAME SERIES 38 - A CONVENIENT TRANSPORT SOLUTION

Murray Series 38 Folding Harrow Frames provide a solution to the transportation of multiple Harrow sections. Designed to fit Category I or II three-point linkage systems, Murray Series 38 Harrow Frames allow transport between paddocks and through smaller sized gates.

Each unit features a top class frame designed and backed by Murrays' years of experience. Simplicity and strength are combined in a compact frame utilising a rigid linkage-mounted centre section and manually folded wings.

Murray Series 38 Harrow Frames suit Category C Harrows including Series 04 Diamond Harrow sections and Series 08 Stump Jump Harrow sections. Series 38 Folding Harrow Frames are supplied complete with centre section, wing attachments and all rings and links to suit your harrow type and size. Please note that 3 point linkage pins are not supplied.
