CULTIVATION

STUMP JUMP

SERIES 08

A versatile implement

A dependable and versatile harrow that easily accommodates uneven ground, light stony areas and roughly cleared land. Features a flexible 'Stump Jump' action frame, cut tines and 4 pull points per section.

SERIES 44

Wrap around frame design

Known as the "Broadacre Stump Jump", this harrow will clear your land with ease. Manufactured using forged tines in a wrap around design featuring 2 pull points per section, it is able to be used with most hydraulic drawbars.

SERIES 48

The problem solver

The "Jumbo Cultivation" is a heavy duty Stump Jump Harrow featuring a wrap around cut tine design and 2 pull points per section. Manufactured from heavier steel, it will make light work of problematic land.

DIAMOND

SERIES 04

Improve your moisture penetration

A rigid Harrow used for weed control and final seedbed preparation. Features a sturdy diamond frame and tapered tines to shatter soil crusts allowing improved aeration and moisture penetration. Bolt-on High Carbon steel tines allow for easy replacement.

LEVELLING

SPRING TINE

SERIES 06

The popular all-rounder

A popular choice for levelling operations, this model is used in conjunction with a primary or secondary implement. Mounting brackets are available to suit most popular implements. Available in a range of sizes.

SERIES 30

Just right for light soils

Specifically designed for light to sandy soils, the light duty Spring Tine comes with two mount arms which are able to be used with most popular implements. Available in a range of sizes.

SERIES 37

Built for tough conditions

A heavy duty Spring Tine used to break down cloddy ground and to prepare final seedbeds. Generally used to complement scarifiers and chisel plows, each unit is supplied complete with two mounts arms which are able to be used with most popular implements.

LEVELLING

SERIES 03

Level your soil with ease

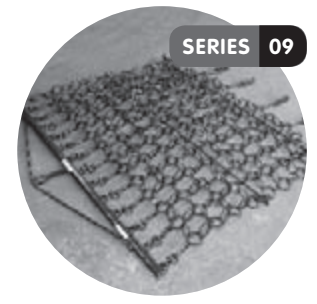

Designed to level soil and seedbeds complementing sowing or cultivation implements. Available in a heavy version if you require additional weight to work your land.

SERIES 35

Rugged levelling design

A heavy duty levelling harrow with a forged tine design suitable for rough country. Available in three and four row width versions.

SERIES 09

A multi-purpose solution

A 'Reduced Tillage' implement suitable to be used for spreading organic matter and levelling seedbeds. Three different depths of chain mesh are available each providing a different level of aggression and pulverisation to suit your requirements.

PASTURE

PASTURELAND

Improve your pasture yield

A light duty harrow specially designed for areas less than 40 hectares (100 acres). Used to aerate pastures, it will break up and spread organic matter. Features a drawbar, tripod sections and deep mesh chain. 3 point linkage hoist frame versions are available.

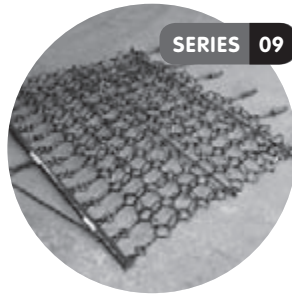

PASTURE

Aerate your pasture

A popular option for larger field operations where strength and durability are required. Capable of aerating larger fields over 40 hectares (100 acres), it will accommodate uneven ground, light stony areas and rough country. Features a drawbar, pasture harrow sections and a deep mesh chain. 3 point linkage hoist frame versions are available.

CHAIN

A multi-purpose solution

A 'Reduced Tillage' implement suitable to be used for spreading organic matter and levelling seedbeds. Three different depths of chain mesh are available each providing a different level of aggression and pulverisation to suit your requirements. Used in strip grazing applications.

ACCESSORIES

FRAMES

Hoist Frame

Transport harrows between paddocks, over roadways or to your storage facility with ease. Compatible with Category I or II three point linkage systems. Designed to carry Series 04 Diamond, Series 05 Pastureland, Series 08 Stump Jump and Series 20 Pasture Harrows.

Folding Frame

Transport solutions for applications that require multiple sections of the Series 04 Diamond Harrows and Series 08 Stump Jump Harrows. Compatible with Category I or II three point linkage systems.

Murray Agricultural Equipment's vision statement in part states;

"To strive for excellence in all that we do; to be recognized as a trusted supplier and to be our customers' preferred supplier of choice through the provision of quality products and first class service at a competitive price." We want to be a business providing quality products, backed up with a no quibble warranty policy, that our customers are happy to deal with.

Following are a few simple points;

PRICES: This Price List dated December 14th 2015 supersedes our Price List dated 15/7/2013. All weights shown are approximate and exclude any allowance for packaging and pallets etc.

Prices shown are "Ex Warehouse" Dandenong, Victoria, Australia. Prices are subject to change at any time without notice.

The prices set out or referred to herein are recommended Australian GST excluded selling prices (RSP) & are subject to Australian GST, and GST included selling prices (RRP). Both sets of prices are also subject to other levies etc where applicable; and freight costs. There is no obligation to comply with these recommendations. No attempt is made to suggest the price the buyer decides to sell for; and no attempt is made to suggest the sales policies, discounts, terms etc; the buyer may have with its customers. This Price List is not an offer to trade. All product names and brand names mentioned are or may be trademarks or registered trademarks of their respective owners. E. & O.E.

PRODUCT DESIGN & SPECIFICATIONS are subject to change and / or variation or improvement at any time without notice and without incurring obligation. Murray Harrows are designed to be pulled (towed) by a tractor correctly fitted with an approved rollover protection structure. Murray Harrows are NOT intended to be attached to / used with or pulled (towed) by ATV's, Ride on Lawn Mowers or similar equipment.

PAYMENT: *Like all businesses we want to be paid for our work.* Trade account customers are to pay for goods before the 27th day of the calendar month following the month during which the goods were invoiced. Other customers are to pay for goods prior to their despatch.

RETURNS: *Shouldn't be a problem, just let us know before hand.*

Date Effective; December 14th 2015RSP, PLUS GST / RRP, INCLUDES GST. Ex. Warehouse Dandenong, Victoria

MURRAY AGRICULTURAL EQUIPMENT

The 2 types of Prices Quoted are RSP, Subject to GST & RRP, GST inclusive.

GLOSSARY OF TERMS;

CULTIVATION HARROWS – “CATEGORY C”

Used for breaking down clods, weed control and final seedbed preparation.

LEVELLING HARROWS – “CATEGORY L”

Designed to cover seed, as well as level soil and seedbeds after clods and larger material have been reduced.

PASTURE HARROWS – “CATEGORY P”

Used in pasture establishment, maintenance and renovation applications. Designed for light pasture aeration, levelling, breaking down and spreading organic matter.

COVERAGE The measurements included in this Price List, our Pamphlets and our other publications regarding Coverage, Width or Size may or may not be the actual physical measurements of our Products, Harrows, Sections, Sets, Units, Machines etc. The Term Coverage may be used to generally describe a Harrow's actual working width rather than the actual physical measurement. A Harrow's Tine Spacing may also have some role in its Coverage.

RANK Number of “rows deep” or number of “rows” of Harrow Tines from FRONT to BACK. From the front of the Harrow section or Tine Section to the rear of the Harrow. Depth of a Harrow Section. Can be 2 Rank, 3 Rank, 4 Rank or 5 Rank. Cultivation Harrow sections are usually 5 Rank deep, ie; Stump Jump, Jumbo, Diamond Harrow sections. Or put another way, a 5 Rank Harrow section is a “Full” Harrow section.

RSP Recommended Selling Price excluding Australian GST of 10%.

RRP Recommended Retail Price including Australian GST of 10%.

QUESTIONS..... INQUIRIES..... INFORMATION.....

If you have any questions, or if you need additional information, just call us on (03) 9791 7033 between 8.15am and 4.00pm (Eastern Standard / Victorian Summer Time) business days or fax us on (03) 9791 1894. We can be contacted via email at; info@murrayag.com.au for general information and at; sales@murrayag.com.au for all sales and accounts enquiries. Our friendly staff are always happy to assist.

SERIES 09 CHAIN HARROW SYSTEM (Category L, P)

A multi-purpose “reduced tillage” harrow system which may be useful for spreading organic matter and levelling seedbeds.

Specifications:

- Available in 3 depths 0.76m (2’6”), 1.5m (5’) and 2.28m (7’6”).
- Centre to Centre of Front Hooks 190mm (7 1/2”).

Features: High Carbon 10mm Square Steel.

Market Note: *Generally, this Harrow is NOT effective when used on regular pasture. For Harrows recommended for pasture, refer to Series 20 Pasture and Series 05 Pastureland.*

IMPORTANT NOTICE;

This Harrow must **not** be operated at a speed greater than 7km/h (4m/h). Operation at a speed greater than 7km/h (4m/h) will result in premature wear and damage to this Harrow and may void the manufacturer’s product warranty.

SERIES 20 PASTURE HARROW SYSTEM – MEDIUM/HEAVY DUTY TYPE (Category P)

A natural choice in Pasture Harrows. Strong, durable, generally suited to areas larger than 40 to 60 hectares (100 to 150 acres) or anywhere pasture needs an extra tickle up or working by a Pasture Harrow.

Specifications

- Coverage 0.86m (2'10").
- Tine Spacing 44mm (1 3/4").
- Tine Length 197mm (7 3/4") approx.
- Centre to Centre of Front Hooks 222mm (8 3/4").

Features: High Carbon Steel Tines and Square Chain Mesh.

Available in 3 Rank (12 tines), 4 Rank (16 tines), 5 Rank (20 tines). 2 Chain mesh depths 0.76m (2'6") and 1.5m (5').

Series 20 Model 20013 2.59m (8'6") 3 section, 4 Rank Super 1.5m (5') Deep Mesh Chain Pasture Harrow shown

IMPORTANT NOTICE;

This Harrow must **not** be operated at a speed greater than 7km/h (4m/h). Operation at a speed greater than 7km/h (4m/h) will result in premature wear and damage to this Harrow and may void the manufacturer's product warranty.
