Murray Agricultural Equipment's vision statement in part states;

"To strive for excellence in all that we do; to be recognized as a trusted supplier and to be our customers' preferred supplier of choice through the provision of quality products and first class service at a competitive price." We want to be a business providing quality products, backed up with a no quibble warranty policy, that our customers are happy to deal with.

Following are a few simple points;

PRICES: This Price List dated 1st July 2024 supersedes our Price List dated 15th May 2023. All KGs shown are approximate and exclude any allowance for packaging and pallets etc.

Prices shown are "Ex Warehouse" Dandenong, Victoria, Australia. Prices are subject to change at any time without notice.

The prices set out or referred to herein are recommended Australian GST excluded selling prices (RSP) & are subject to Australian GST, and GST included selling prices (RRP). Both sets of prices are also subject to other levies etc where applicable; and freight costs. There is no obligation to comply with these recommendations. No attempt is made to suggest the price the buyer decides to sell for; and no attempt is made to suggest the sales policies, discounts, terms etc; the buyer may have with its customers. This Price List is not an offer to trade. All product names and brand names mentioned are or may be trademarks or registered trademarks of their respective owners. E. & O.E.

PRODUCT DESIGN & SPECIFICATIONS are subject to change and / or variation or improvement at any time without notice and without incurring obligation. Murray Harrows are designed to be pulled (towed) by a tractor correctly fitted with an approved rollover protection structure.

PAYMENT: *Like all businesses we want to be paid for our work.* Trade account customers are to pay for goods before the 27th day of the calendar month following the month during which the goods were invoiced. Other customers are to pay for goods prior to their despatch.

RETURNS: *Shouldn't be a problem, just let us know before hand.*

GLOSSARY OF TERMS;

3 POINT LINKAGE – “CATEGORY 3PL”

Farming implements that are connected to a tractor via 3 Point Linkage.

CULTIVATION HARROWS – “CATEGORY C”

Used for breaking down clods, weed control and final seedbed preparation.

LEVELLING HARROWS – “CATEGORY L”

Designed to cover seed, as well as level soil and seedbeds after clods and larger material have been reduced.

PASTURE HARROWS – “CATEGORY P”

Used in pasture establishment, maintenance and renovation applications. Designed for light pasture aeration, levelling, breaking down and spreading organic matter.

COVERAGE The measurements included in this Price List, our Pamphlets and our other publications regarding Coverage, Width or Size may or may not be the actual physical measurements of our Products, Harrows, Sections, Sets, Units, Machines etc. The Term Coverage may be used to generally describe a Harrow’s actual working width rather than the actual physical measurement. A Harrow’s Tine Spacing may also have some role in its Coverage.

RANK Number of “rows deep” or number of “rows” of Harrow Tines from FRONT to BACK. From the front of the Harrow section or Tine Section to the rear of the Harrow. Depth of a Harrow Section. Can be 2 Rank, 3 Rank, 4 Rank or 5 Rank. Cultivation Harrow sections are usually 5 Rank deep, ie; Stump Jump, Jumbo, Diamond Harrow sections. Or put another way, a 5 Rank Harrow section is a “Full” Harrow section.

RSP Recommended Selling Price excluding Australian GST of 10%.

RRP Recommended Retail Price including Australian GST of 10%.

QUESTIONS..... ENQUIRIES..... INFORMATION.....

If you have any questions, or if you need additional information, just call us on (03) 9791 7033 between 8.00am and 4.00pm (Eastern Standard / Victorian Summer Time) business days. We can be contacted via email at; sales@murrayag.com.au for all sales and accounts enquiries and at; info@murrayag.com.au for marketing and business development enquiries. SERIES 75 MULTI USE 'A' FRAME (Category 3PL)

An all in one solution that allows you to mount a landscape rake and grader blade while also towing an implement. This expands capabilities by allowing the user to run multiple operations in a single pass. This implement is suitable for new entrants to farming requiring a 3 point linkage implement kit. Instead of buying multiple 3 point linkage implements, you simply buy the frame and swap out the implement which bolts directly into the frame.

Specifications:

- Upgraded specifications to ensure long working life
- Engineered backing piece on Grader Blade to ensure durability
- 360 degree rotation – 6 angle adjustments

SERIES 62 RIGID CHISEL PLOW – (Category C)

MODEL	DESCRIPTION	TINE SPACING	RSP	RRP	WEIGHT
62700	7 Tine Chisel Plow complete (Small frame)	300mm	\$ 6,050.00	\$ 6,655.00	318kg
62900	9 Tine Chisel Plow complete (Small frame c/w 2 extension stub frames)	300mm	7,700.00	8,470.00	391kg
62110	11 Tine Chisel Plow complete (Large frame)	300mm	9,130.00	10,043.00	499kg

Options

62701	One pair of depth control wheel assemblies. Recommended in most applications to avoid the Chisel Plow “digging in”.		990.00	1,089.00	40kg
-------	--	--	--------	----------	------

FEATURES:

- Machines are supplied with all components, including long shank tines, clamps, bottom linkage pins, clips and 75mm reversible points (Standard) etc, to fully complete the size specified.
- Adjustable Tine Spacing (standard spacing 300mm) – just move mount clamps and / or add additional Tine assemblies if required.
- Suitable for tractors fitted with Cat II three-point linkage systems. (Top link and pin NOT supplied)
- Frame construction – 100mm square RHS, underframe clearance 630mm (24”), Rank spacing 760mm (30”), optional depth control wheels – 500mm × 100mm approx. Tine steel shank size 75 × 25mm.
- Power requirements; This depends very much on soil type, working depth and conditions; however, allow up to 8 kw (10 hp) (PTO) per tine. ie 9 tines = approx 72 kw (90 hp).

MACHINES SUPPLIED UNASSEMBLED

Market Note: When calculating freight charges on this product, please take care as space (M³) generally exceeds weight.

RSP, PLUS GST / RRP, INCLUDES GST. Ex. Warehouse Dandenong, Victoria

SERIES 09 CHAIN HARROW SYSTEM (Category L, P)

A multi-purpose “reduced tillage” harrow system which may be useful for spreading organic matter and levelling seedbeds.

Series 09 Model 9132 2.44M (8') wide, 1.5M (5') Deep Mesh Chain Harrow shown

Specifications:

- Available in 3 depths 0.76m (2'6"), 1.5m (5') and 2.28m (7'6").
- Centre to Centre of Front Hooks 190mm (7 1/2").

Features: High Carbon 10mm Square Steel.

Market Note: Generally, this Harrow is **NOT** effective when used on regular pasture. For Harrows recommended for pasture, refer to Series 20 Pasture and Series 05 Pastureland.

IMPORTANT NOTICE;

This Harrow must **not** be operated at a speed greater than 7km/h (4m/h). Operation at a speed greater than 7km/h (4m/h) will result in premature wear and damage to this Harrow and may void the manufacturer's product warranty.

SERIES 72 FABRICATION TABLES (Category SP)

For the fabricators that want to get the job done right!

The Hugh Murray Welding Tables jig / fixture table is a much needed design change from your typical fabrication table. The removable centre plate allows you to get into those hard to reach spots without having to relocate yourself and your equipment every time you need to adjust your position. The removable plate makes short work of those arduous welding tasks and can accommodate even the most complex welding projects.

The other major design change is on the under side of the table; the installation of the legs is made easy and precise by designing the leg adapter plates in such a way that the legs will run perfectly square and weld directly to the table, this makes assembly of the legs a quick and easy task with no time wasting. This table is designed to only accept 50x50mm square hollow section (SHS) as legs because it is a very common SHS dimension and can be found at every steel supplier. This is so that the customer can choose the height of their table to suit their needs, rather than a one-size-fits-all approach.

Size: 1200 x 1200mm, 1200 x 800mm

Please note that the legs are included to the height of 900mm.

MODEL	DESCRIPTION	RSP	RRP
